- Mentor/advise graduate students in the DPT and PhD educational programs.
- Teach in the DPT and PhD educational programs.
- Collaborate with other Departments in the Carver College of Medicine.
- Serve on various committees based on program needs and interest including the DPT and PhD program committees, comprehensive exam committees, and dissertation committees.

**Graduate Program**

The Graduate Program in Physical Therapy and Rehabilitation Science is an academic unit in the Carver College of Medicine. The program offers a Doctor of Physical Therapy (DPT) degree and Doctor of Philosophy (PhD) degree in Physical Rehabilitation Science. Present enrollment includes 108 DPT and 15 PhD students. The DPT program focuses on doctoral clinical entry-level training reflective of the APTA's 2020 vision statement. The Rehabilitation Science program emphasizes research and training of doctoral students as exemplified by over 53 doctoral graduates serving academic institutions across the country. The specialty areas of the faculty emphasize the underlying science that drives the rehabilitative process. All graduate faculty have independent research laboratories within the College of Medicine, including a gait laboratory and a spinal cord research laboratory both housed in the University of Iowa Hospitals and Clinics, two motor control/neuromuscular/EMG laboratories, an exercise physiology (cardiopulmonary) laboratory, a sports medicine laboratory, a neuromuscular biomechanics laboratory, and a neurobiology of pain research laboratory. Core research facilities in the College of Medicine are readily accessible and collaborative opportunities are available within the UI healthcare complex which for the 17<sup>th</sup> year in a row is nationally ranked overall as one of "America's Best Hospitals."

**Salary/Start-up**

Excellent salary and benefits; start-up funds; laboratory space.
