Fitness or Fatness: Which Is More Important for Health?

Steven Blair, P.E.D.
Professor
Department of Exercise Science
University of South Carolina

12:00 Noon
Thursday, November 7, 2013
2117 MERF

A light lunch will be served in the MERF Atrium, 1st Floor

Everyone in a position to control the content of this educational activity will disclose to the CME provider and to attendees all relevant financial relationships with any commercial interest.

EDUCATIONAL OBJECTIVES: Upon completion of this course, participants should be able to describe the mechanisms of diabetes, obesity and related disease processes; effectively evaluate research findings; and provide insights and applications relevant to the diagnosis and treatment of diabetes, obesity and related diseases.

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the Office of Scientific Affairs in advance at (319) 335-8587.
