Regulation of nutrient metabolism by FGF21

David Mangelsdorf, PhD
Professor and Chair
Department of Pharmacology
Investigator, Howard Hughes Medical Institute
Raymond and Ellen Willie Distinguished Chair in Molecular Neuropharmacology
The Distinguished Chair in Pharmacology
Univ. of Texas Southwestern Medical Center

12:00 Noon
Wednesday, October 2, 2013
1289 CBRB (Kelch)

A light lunch will be served

The University of Iowa Roy J. and Lucille A. Carver College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Iowa Carver College of Medicine designates this educational activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure: The speaker will disclose the nature of any significant financial relationships they have with the commercial manufacturers of products and/or the providers of services discussed in their presentation. They will also disclose if any of the pharmaceuticals discussed are investigational or have not been approved by the FDA.

TARGET AUDIENCE: This conference will be of particular interest and value to physicians, scientists, nurses, psychologists, and public health professionals with an interest in the pathophysiology, prevention and treatment of diabetes and obesity.

CME ACCREDITATION: The University of Iowa Roy J. and Lucille A. Carver College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CME CREDIT DESIGNATION: The University of Iowa Carver College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Everyone in a position to control the content of this educational activity will disclose to the CME provider and to attendees all relevant financial relationships with any commercial interest.

EDUCATIONAL OBJECTIVES: Upon completion of this course, participants should be able to describe the mechanisms of diabetes, obesity and related disease processes; effectively evaluate research findings; and provide insights and applications relevant to the diagnosis and treatment of diabetes, obesity and related diseases.

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the Office of Scientific Affairs in advance at (319) 335-8587.
